

Product Code . LSK-ES-10486

Engineering Science Storage Unit

Description

The trolley allows one person to push all the trays from one room to another. It has extra space on top with fixing points so it may also carry or hold Work Panels.

A mobile trolley for use with the Engineering Science kits. This trolley allows teachers or lecturers to safely and tidily store up to 24 trays in one mobile unit.

It allows teachers or lecturers to fit work panels to the top and use the trolley as a mobile demonstration table.

Its lockable wheels allow it to be both mobile and stable.
